

# roxio® toast® 17 TITANIUM

## Complete multimedia suite with DVD burner for Mac

Introducing Roxio® Toast® 17 Titanium, the leading digital media manager and CD & DVD burner for Mac. Now in 64 bit, Toast makes it simple to burn, copy, capture, edit, convert, and share your media. Record, sync, and edit multiple media streams, capture cool content from the web, a CD/DVD, even old LPs, and author audio CDs and DVDs fast. Roxio Toast 17 Titanium delivers all of your digital media must-haves in one complete suite!

### Burn & copy discs

The easiest and fastest way to burn to CD, DVD and Blu-ray discs. Copy\* discs even faster with multiple drives. Secure your data on discs and USBs with banking-level encryption and password protection. Easily burn music, data, and video to disc with drag and drop controls.

### Capture & convert media

Capture video from your screen, the web, camcorders, and more or convert video and audio to popular digital formats. Use MultiCam Capture™ to record your screen, yourself through a webcam, or video from external devices. Then, easily trim and share your video clips.

### Easy to share

Upload your media online or burn to disc. Create DVDs with chapters and menus. Burn to DVD and AVCHD in a few simple steps and add customized menus, text, music, and more. Move up to Toast Pro for more menus and Blu-ray disc authoring.

## What's New?

### Everything you need in one place—now in 64 bit!

Access all the tools you need in one suite, where burning is always at the heart of the application.

### The Complete MultiCam Solution with NEW MultiCamera Editing

From capturing to editing, Toast's multi-camera solutions have you covered. With multiple angles recorded, you can easily combine synced videos and select which angle to show as the videos play—all with new MultiCam Editing. Explore a variety of creative options, including picture-in-picture effects, or swiftly switch between camera angles to add interest and draw in viewers. With MultiCam Capture and MultiCam Editing, we're bringing you all of the options to create engaging videos to grow your audience!

## Key Features & Benefits

### Burn to CD, DVD and Blu-ray\*\* discs

Toast is the easiest and fastest way to burn your digital media. Burn music or data, or create DVD movies complete with menus and chapters. Encrypt and password-protect your files on disc or USBs and easily backup and catalog your data as you burn.

### Capture video from almost anywhere

Enjoy screen recording software or capture\* video from the web, streaming videos, camcorders, disc, or even record multiple devices simultaneously with new MultiCam Capture. Import audio from LPs, tapes, audiobooks, and online sources and save to popular formats.

### Convert video to popular formats

Easily convert video or audio files to popular file formats of your choice. Choose popular video presets to convert video for playback on your phone, tablet, video game consoles and other popular devices.

### Minimum System Requirements:

- Internet connection required for installation, registration, and updates. Registration required for product use.
- Mac computer with an Intel processor
- 1 GB RAM recommended (2 GB RAM for Pro)
- Requires Mac OS X 10.10 and above†
- Approximately 1 GB (5 GB for Pro) of free space to install all components
- VideoBoost requires a compatible NVIDIA card and 4 GB of RAM for optimal performance
- DVD drive required for installation

†This version of Toast is a 64-bit application

### Copy discs

Easily copy\* content from CDs, DVDs, and Blu-ray Discs, even faster with multiple drives. Recover files from damaged discs and copy them onto a new disc with a list of unrecoverable files.

### Edit and enhance video and audio

Looking to clean up video or audio? Trim unwanted segments from your clips with the simple video editing tools. Edit and enhance audio tracks with the easy-to-use tools in Toast Audio Assistant. When you're done, add to your media library or easily burn to disc.

### Share on your favorite social sites

When you're ready to share, upload your video directly to YouTube, Facebook, or Vimeo in one step to share with your family and friends. You can even output video to formats compatible with your desired device.

\* Does not copy, convert or Rip encrypted or protected data

\*\* Plugin required to burn video to Blu-ray Disc for Toast Titanium. Plug-in included with Toast Pro.
